An entirely new creation sculpted from the experience of the past, designed with a vision of the future, and delivered in an unparalleled form factor of premium elegance. The **Apollo Series** has redefined audio excellence through revolutionary technology coupled with innovative design to create a superior entertainment experience.

The **Apollo Series** combines engineering and design never seen before in the marine industry, forever changing the face of marine entertainment and becoming the industry's most awarded marine stereo.

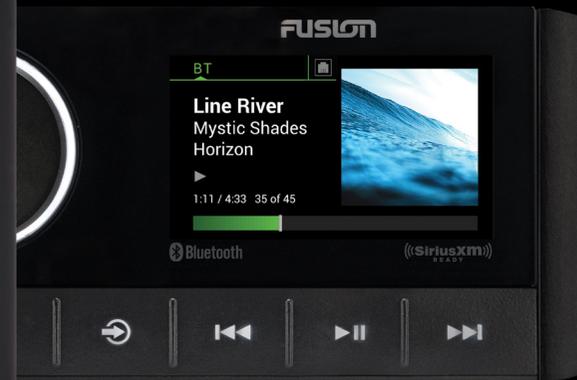

From the kick drum to your eardrum, we have made it inherently simple to customize your audio entertainment, ensuring **the sound quality is maintained across the audio chain** delivering a technically superior listening experience. Apollo's incomparable sound quality has created a new era for marine audio entertainment, and is the point of departure for a new generation of marine audio system solutions.

Welcome to the new era of marine audio entertainment crafted and engineered by **Apollo** – The God of Music.

MS-SRX400

MS-RA770 - THE WORLD'S MOST AWARDED MARINE STEREO

THE INDUSTRY AWARD-WINNING FEATURES OF THE APOLLO SERIES

MS-RA770

FUSION'S DIGITAL SIGNAL PROCESSING

The power of Fusion's **DSP** enables the optimization of music playing in each audio zone on your vessel, providing premium audio delivery to all **Fusion** speakers and subwoofers in any environment.

THE WORLD'S FIRST MARINE WI-FI STEREO

Wi-Fi audio streaming provides **high quality audio** with a faster data transfer rate in comparison with Bluetooth®. PartyBus over Wi-Fi allows for **quick and simple** network setup.

FUSION-PARTYBUS™

Engineered for those who value the freedom of musical choice, and freedom to play what they want, where they want, **PartyBus** is Fusion's audio distribution network of the future.

OVER-THE-AIR SOFTWARE UPDATES

Over-the-air software updates are now available from your compatible device via the free **Fusion-Link™** app, making the **Apollo Series** intelligently simple and always up to date.

HIGH QUALITY AUDIO VIA APPLE AirPlay®

The **world's first marine stereo series** to bring you seamless high quality audio streaming from your favourite music app via **Apple AirPlay®*** over Wi-Fi from a compatible Apple device.

ONE PIECE GLASS TOUCH DISPLAY

The **Apollo RA770** is the future of audio entertainment. Trying to locate the right button is a thing of the past - simply tap the screen to pause and play, or swipe through your playlist to your favorite song.

MORE SOURCE OPTIONS THAN EVER BEFORE

Take advantage of the many source options the **Apollo Series** has to offer, including Bluetooth, **Apple AirPlay®***, UPnP*, Optical Audio, Advanced SiriusXM features, DAB+ Ready, AM/FM Radio, AUX and USB**.

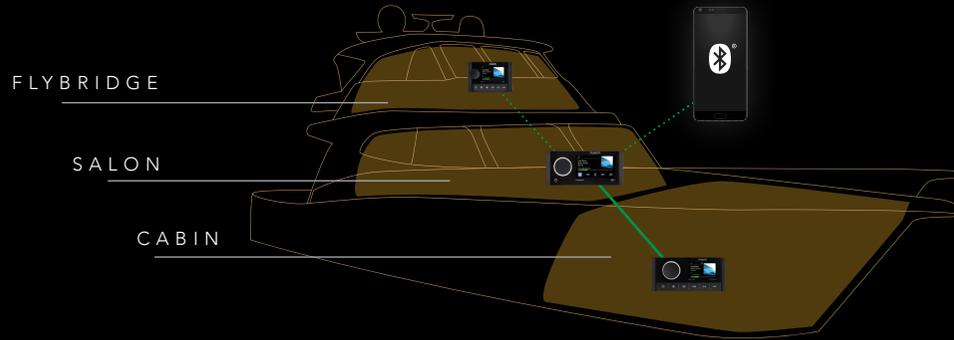

FUSION-LINK™ CONNECTIVITY

Fusion-Link is the industry standard protocol for on-water audio integration and control. **Fusion-Link** enables you to control the entertainment right from partnered marine Multi-Function Displays, compatible devices and Garmin watches.

F R E E D O M O F M U S I C A L C H O I C E

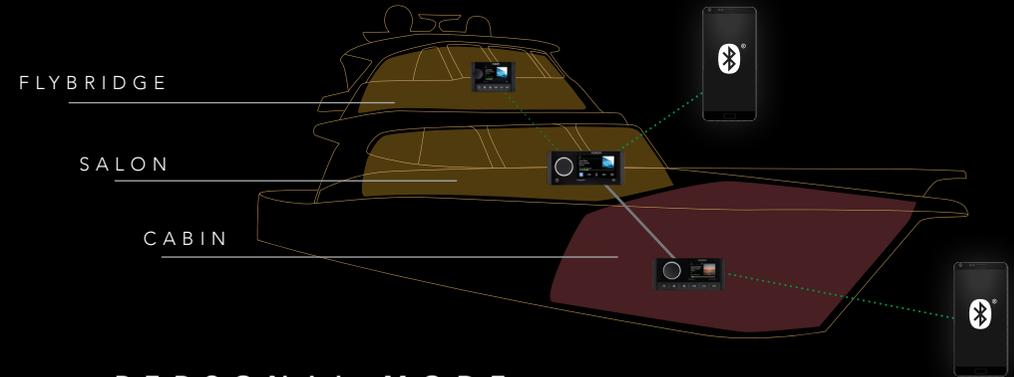

PARTY MODE

One Bluetooth source playing audio perfectly synced across three **PartyBus** enabled stereos in Party Mode.

PartyBus is Fusion's **audio distribution network of the future**. Engineered for those who value freedom of musical choice, freedom to play what they want, where they want.

The power of PartyBus kicks in when you add more PartyBus enabled stereos to your entertainment system. Each additional PartyBus enabled stereo gives you the option to join Party Mode and play the **same perfectly synced audio source through the entire vessel**. Switch into Personal Mode and listen to available audio sources from your stereo in the area of your choice without disrupting Party Mode in the other areas of the vessel.

PARTYBUS GIVES THE FREEDOM OF MUSICAL CHOICE ACROSS THE ENTIRE VESSEL

PERSONAL MODE

One Bluetooth source playing independently in the Cabin without disrupting Party Mode in the Salon or Flybridge, while another Bluetooth source continues to play audio perfectly synced across the Flybridge and Salon in Party Mode.

APOLLO NETWORKING

The **Apollo RA770** and the **SRX400** are designed with Wi-Fi on board so you can **wirelessly connect multiple Apollo stereos** without running any cables, which reduces installation time, cost and complexity.

The Apollo RA670 uses Ethernet to connect into the PartyBus network. Simply connect it to an external router (Wi-Fi network), or via an Ethernet cable to another PartyBus-enabled stereo to gain PartyBus functionality.

A TECHNICALLY SUPERIOR LISTENING EXPERIENCE MADE SIMPLE

SUPERIOR SOUND QUALITY IN EVERY ENVIRONMENT

Precisely calculated loudness curves optimized for the human ear, ensure quality audio delivery of your favorite song **at every volume level**. Giving you quality, full range sound whether you have your music turned all the way up reeling in the catch of the day, or you're relaxing quietly in the cabin.

Distortion is now a thing of the past with Fusion DSP. The sophisticated feed-forward limiter and product threshold insights ensures the system is delivering the inherent maximum output possible of every Fusion product in the system. This provides protection from overloading your speakers, giving you the confidence to play what you want, how you want, season after season.

Custom profiles can be developed for key boat manufacturers to increase value, save time, ensure quality control out of the factory and give customers the ultimate in customized audio entertainment.

FEED-FORWARD LIMITER

The sophisticated feed-forward limiter anticipates a peak in the audio and adjusts the gain to ensure a distortion-free listening experience.

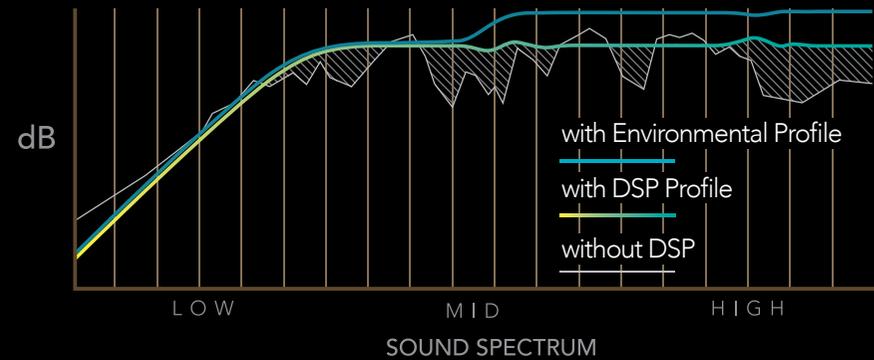

VOLUME EQUALIZER

The powerful DSP chip monitors the music playing and adjusts loudness curves to ensure a quality audio experience at every volume level.

SPEAKER & ENVIRONMENTAL PROFILING

The power of Fusion's DSP enables the optimization of Fusion speakers in each audio zone on your vessel, giving you premium audio delivery to all Fusion speakers in any environment. Custom profiles have been developed for each Fusion speaker and subwoofer, ensuring clear and consistent sound reproduction across the whole frequency spectrum. Using environmental information, Fusion DSP adjusts the audio signal to ensure optimized audio delivery custom to each zone, for a premium audio entertainment experience.

Note: The Fusion-Link™ app is required for setup.

SYSTEM APPROACH

Our system approach ensures every step of the audio chain is optimized through calculations by our audio engineers to deliver a technically superior listening experience – without the need for you to have a technical understanding.

FROM THE KICK DRUM TO YOUR EARDRUM, FUSION DSP REPRODUCES YOUR MUSIC IN THE QUALITY THE MUSICIANS INTENDED.

FREE FUSION-LINK WIRELESS REMOTE APP

EASY-TO-INSTALL DSP PROFILES FROM YOUR COMPATIBLE DEVICE

Setting up your DSP profiles is made simple with the free Fusion-Link app. With just a few clicks, you can set up the preconfigured DSP profile once and get back to enjoying what you love on the water, while listening to high quality audio customized for your ears and the environment. Download the free Fusion-Link remote control app for Bluetooth® and Wi-Fi from the App Store® or Google Play™ and enjoy the freedom of wireless control from your compatible device.

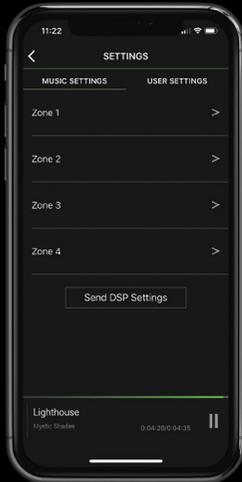

Adding a new DSP profile is easier than ever before. Just follow the **3 step process** to configure your entertainment system for a technically superior listening experience.

Download on the
App Store

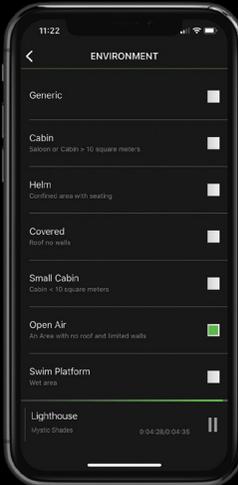

GET IT ON
Google Play

1 Select the audio zone you want to configure

2 Select the connected Fusion speakers, amplifiers and/or subwoofers

3 Select the listening environment and enjoy the power of Fusion's DSP

HIGH QUALITY AUDIO CUSTOMIZED FOR YOUR EARS AND THE ENVIRONMENT

APOLLO 770

MS-RA770

THE APOLLO RA770 REDEFINES AUDIO ENTERTAINMENT WITH REVOLUTIONARY TECHNOLOGY & SUPERIOR SOUND QUALITY

INSPIRED BY APOLLO, THE GOD OF MUSIC

Building on Fusion's industry recognized True-Marine design philosophy, the new Apollo Series led by the Apollo RA770 takes marine audio entertainment to the next level. Through creative design and technological brilliance, a purpose-built marine audio entertainment system featuring many world-firsts has been created, including many innovations you are used to at home. Tap and swipe your way intuitively through your playlists with the glass touchscreen display, even with wet fingers, and enjoy high quality music all day long with Wi-Fi streaming using Apple AirPlay® or UPnP.

Enjoy the freedom of total control with PartyBus™, along with the freedom to customize your audio to your precise preferences with DSP technology.

Sea Ray SPX 210

Sea Ray SDX 290

Sea Ray SDX 290

- The **Apollo RA770** harnesses the power of **Fusion DSP**, letting you optimize each audio zone on your vessel with your Fusion speakers, for premium listening in any environment. From the kick drum to your eardrum, **Fusion DSP** reproduces your music in the quality the musicians intended.
- Enjoy the clarity and premium quality of **Wi-Fi audio streaming** in a world-first for marine stereos, including the convenience of **Apple AirPlay** and UPnP. Designed with Wi-Fi on board, the **Apollo RA770** and **SRX400** can also be connected without running any wires – reducing installation time, cost and complexity.
- The power of **PartyBus** enables other **PartyBus** products on the network to connect to the **Apollo RA770** in **Party Mode** and play the same perfectly synced audio source through the entire vessel. Opt into **Personal Mode** on any **PartyBus** enabled product and listen to available audio sources from your stereo in the area of your choice without disrupting **Party Mode** in the other areas of the vessel.

KEY FEATURES

The **Apollo RA770** surpasses previous standards set in audio entertainment, creating a new, world-class audio entertainment experience featuring:

Custom audio profiles for each zone in your vessel to deliver higher quality audio

Fusion-PartyBus is the new way to enjoy music on your boat

Over-the-air software updates from your compatible device via the free **Fusion-Link™** app

Wi-Fi audio streaming via **Apple AirPlay** and UPnP

4.3" touchscreen with play, pause and skip functions using touch commands

Control your tunes from a compatible **Multi-Function Display**, compatible device or **Garmin watch**

Multi-Zone™ Technology control in four independent audio zones

IPX7 Ingress Protection rating for performance season after season

Class-D amplifier design for higher efficiency and output

280 W peak power output

2 Ohm stereo stable for wiring up to 2 speakers per channel

APOLLO 670

MS-RA670

APOLLO RA670 RE-EMBODIES
AWARD-WINNING AUDIO
INNOVATION IN A NEW
COMPACT FORM FACTOR

ADDING TO THE SUM OF AUDIO INNOVATION

Introducing the newest addition to the Apollo Family – the brand new **Apollo RA670** inherits key audio innovations and technological brilliance from the award-winning Apollo RA770, re-embodied in a more compact form factor. Experience key innovations including optical audio input, Wi-Fi audio streaming* and over-the-air software updates* via the **Fusion-Link™** app. With the power of advanced DSP technology, the RA670 delivers you a technically superior listening experience - without the need for you to have a technical understanding. Enjoy the freedom of musical choice with Fusion's **PartyBus™***, the audio distribution network of the future.

Axopar 28C

Regal 33 OBX

Bavaria C50

- The Apollo RA670 harnesses the power of **Fusion DSP**, letting you optimize each audio zone on your vessel with your Fusion speakers, for **premium listening in any environment**. From the kick drum to your eardrum, Fusion DSP reproduces your music in the quality the musicians intended.
- The power of PartyBus enables other PartyBus products on the network to connect to the RA670 (via Ethernet) in **Party Mode** and play the same **perfectly synced audio source through the entire vessel**. Opt into **Personal Mode** on any PartyBus enabled product and listen to available audio sources from your stereo in the area of your choice without disrupting Party Mode in the other areas of the vessel. (*)
- Enjoy the clarity and quality of **Wi-Fi audio streaming**, along with **over-the-air software updates** allowing you keep your system up to date with the latest features with convenience. (*)
- With **optical audio** capability, you can now enjoy audio from your TV through the Apollo RA670 system, recreating a home-theater like experience on your vessel.

KEY FEATURES

The **Apollo RA670** harnesses the innovation of the Apollo Series delivering a world-class audio entertainment experience featuring:

Custom audio profiles for each zone in your vessel to deliver higher quality audio

Fusion-PartyBus is the new way to enjoy music on your boat*

Over-the-air software updates from your compatible device via the free **Fusion-Link™** app*

2.7 color display

Control your tunes from a compatible Multi-Function Display, compatible device or Garmin watch

Multi-Zone™ Technology control in three independent audio zones

IPX6 & IPX7 Ingress Protection rating for performance season after season

Class-D amplifier design for higher efficiency and output

280 W peak power output

2 Ohm stereo stable for wiring up to 2 speakers per channel

(*) When connected to a wireless router or integrated into a Wi-Fi enabled Apollo Series stereo network.

APOLLO SRX400

MS-SRX400

Axis T22

THE APOLLO SRX400 IS A PERFECT COMBINATION OF COMPACT DESIGN & SUPERIOR SOUND

QUALITY AUDIO IN A COMPACT ZONE STEREO

For convenience without compromising on quality. The premium design, engineering and powerful feature set of the Apollo Series is combined in a compact, versatile form factor in the SRX400. With PartyBus™, enjoy synchronized music from one source throughout your boat, or the freedom to choose different sources in every area. Make the most of crisp, clear high-quality music with Wi-Fi streaming using Apple AirPlay® or UPnP, allowing you to enjoy audio streaming with minimal quality loss. With Fusion's advanced DSP technology, the Apollo SRX400 delivers a technically superior listening experience, without the need for you to have any technical understanding. The Apollo SRX400 is a perfect combination of compact design and superior sound.

Sea Ray SPX 190

- Providing a tidy, premium finish, you can install your **Apollo SRX400** easily in one piece. Being 2 Ohm stereo stable, this zone stereo can extend your audio entertainment and connect up to two speakers per channel.
- The Apollo SRX400 harnesses the power of **Fusion DSP** to optimize the sound sent to your Fusion speakers on your vessel, giving you **premium audio in any zone**. From the kick drum to your eardrum, Fusion DSP reproduces music in the quality the musicians intended.
- Enjoy the clarity and premium quality of **Wi-Fi audio streaming** in a world-first for marine stereos, including the convenience of **Apple AirPlay** and UPnP. Designed with Wi-Fi on board, the Apollo RA770 and SRX400 can also be connected without running any wires – **reducing installation time, cost and complexity**.
- Harness the power of PartyBus and enjoy the freedom of musical choice by installing the **Apollo SRX400** into different audio zones on board. Connect to your Apollo RA770 in **Party Mode** and play the same perfectly synced audio throughout your vessel or opt into **Personal Mode** and listen to your own music in any area without disrupting Party Mode around the boat.

KEY FEATURES

The **Apollo SRX400**, with its innovative technology and design, offers a new world-class audio entertainment experience, featuring:

Custom audio profiles for each zone in your vessel to deliver higher quality audio

Fusion-PartyBus is the new way to enjoy music on your boat

Over-the-air software updates from your compatible device via the free **Fusion-Link™** app

Wi-Fi audio streaming via **Apple AirPlay®** and UPnP.

Control your tunes from a compatible Multi-Function Display or compatible device

2.7" color display

IPX7 Ingress Protection rating for performance season after season

Class-D amplifier design for higher efficiency and output

140 W peak power output

2 Ohm stereo stable for wiring up to 2 speakers per channel

Compact design

FUSION-LINK WIRELESS REMOTE APP

ENTERTAINMENT CONTROL IN THE PALM OF YOUR HAND

Fusion-Link™ is the most widely adopted protocol for on-water audio integration, trusted by the industry's most prestigious boat builders and supported by the world's leading marine electronics manufacturers. Whether you're on the move or at the helm, quick and easy access to the onboard entertainment is only an 'app' away...

- Volume control
- Play / pause / skip
- Source selection
- Zone naming
- Software updates direct from your compatible device
- Quick access to product support and resources
- DSP profile settings
- Zone EQ settings

THE MARINE ENTERTAINMENT STANDARD

Fusion-Link is the industry standard protocol for on-water audio integration and control. It enables partnered marine Multi-Function Displays, compatible devices and Garmin watches to control the entertainment right from your fingertips.

ENTERTAINMENT CONTROL DIRECTLY FROM YOUR WRIST

Control the entertainment right from your Garmin watch with the Fusion-Link Lite app. Download the Fusion-Link Lite app for free from the Connect IQ™ Store to enable wireless control via ANT® technology from your compatible Garmin watch.

connect IQ™
powered by Garmin

ANT™

ARX REMOTE

Enjoy the freedom and convenience of wireless audio control from anywhere around your boat with the MS-ARX70 wireless remote. Easily mount the ARX remote without having to drill holes use screws or run cables - simply place, pair and play. On-board audio control have never been so easy.
